Highlights from the official program of the congress

Scientific program

Session 4: Sterilization
Thursday, October 31st, 2019 / 4:30 - 6:15 PM

Product families in steam sterilization
The speech is addressing steam penetration (measurements)
Presenter: Dr. Josephus Paulus Clemens Van Doormalen
Gomez Hoyos University Of Technology Eindhoven

Satellite symposium

Friday, November 1st, 2019 / 12:30 AM - 2:00 PM

New insights in steam sterilization
Overcoming worst-case for steam penetration sterilization challenges with 4D sensor
Presenter: Francesco Tessarolo, PhD
Department of Industrial Engineering, University of Trento & Healthcare Research and Innovation Program (IRCS), Bruno Kessler Foundation

Innovation in washing technology
Safety, efficiency & productivity coming together
Presenters: Andrew Cserey - Marketing and Business Development Manager - Steelco S.p.A.
Luigi Guarda - Marketing Director - Steelco S.p.A.

Power Pulse Cleaning
Face the increasing complexity of surgical instruments and cleaning challenges whilst reducing manual pre-cleaning

Maximizing productivity of washing systems in the CSSD
The smart combination of devices and automation

Vapor and Liquid Hydrogen Peroxide sterilization
Opportunities and limitations of available techniques in reprocessing heat/steam sensitive medical instruments
Presenter: Serena Toniolo
Product Manager low temperature sterilization - Steelco S.p.A.
