High quality solutions

Whether you manage a small day surgery centre or a large university hospital CSSD, you need to provide the same high quality service to clinicians providing the right instrument:

- Reprocessed to the right standard
- In the right place at the right time
- At the right cost
- Time after time
- With maximum efficiency and minimum disruption

At Steelco we understand that you face many challenges each day. Our role is to provide you with the right outcome driven solutions than exceed your expectations.

Working in over 90 countries, Steelco has built a reputation of listening to customers, designing and delivering solutions that work for them. Not only does the company have the widest range of infection control equipment of any supplier but we always put our customers first.

The first step is understanding your needs and our experienced design department can provide a full consultancy and planning service to support you, from simply replacing a single machine to turning your plans into a facility that exceeds your expectations.
A leading company in infection control

As you would expect from a leading global infection control company Steelco has a wide range of equipment to meet different size department and applications.

Our main product ranges include: Ultrasonic units, washers disinfectors, tunnel washers, cart washers, sterilizers, AERs, drying cabinets and a range of accessories and chemistries.

The SteelcoData control system can be linked to most Steelco equipment to provide a comprehensive traceability system as well as remote monitoring of devices.
